Este formulário é em inglês uma vez que é imprescindível o domínio do inglês para este projeto e a vivência em Atenas. Você porém pode escrever em português.

Este formulario se encuentra en Inglés, porque el dominio de Inglés para este proyecto y la experiencia en Atenas es indispensable. Sin embargo, puede escribir en portugués.

Describe how do you understand yourself and your practice within the collective process CAPACETE's is proposing. Describe as well the lines of research you would be willing to develop during the program and explain how these may contribute to the collective program?

The program will offer housing for all selected participants.

There will be no fee charged. Housing will be in double-shared rooms unless different decisions can be made along the process of selection and more support is found. Transport is the responsibility of the applicant and CAPACETE will work together to find necessary fundings so that all selected participants can attend. Nevertheless, the cost of living in Athens has to be arranged by the applicant. This cost may vary depending on your expectations. Average cost is from EU\$ 300 to EU\$ 600. Please explain how you think of financing your stay in Athens under these circumstances. Health insurance is not included by the program.

If you think you will not be able to find support for your stay in Athens we will work to provide a minimum fee for that. Please make sure to let us know your situation concerning financing in this application. We will make a selection process based on a need-based situation.

Please attach a motivation letter, your CV, portfolio (if the case) and whatever you may think will help us understand your work and/or thinking process. We will not accept any materials send by post.

We will contact you if we need more information on your work. A skype or telephone meeting will be scheduled if you are pre-selected.

date and signature

Send this document to: athens@capacete.org

We will inform by email the reception of your application.
